User-friendly & high-speed digital duplicator for higher business efficiency

The DD 5450 is the next-generation digital duplicator that helps increase efficiency while offering simple operability. The high-speed machine prints up to 150 ppm (B4 and smaller) and is equipped with a full-colour LCD touch panel. Moreover, it has a system to feed and deliver up to as many as 1,500 sheets in a stable manner. This duplicator reduces both workload and stress while at the same time being cost-effective.

- 300 x 600 dpi
- Print Preview to avoid master making errors
- Maximum 25-up printing (custom) to save prints
- Print directly from USB, PC or network with an extra option

User-friendly, effective and high performance

Easy-to-use large-sized full-colour panel

The large 5.7-inch control panel indicates the operation menu and gives guidance to both new and experienced users in an easy-to-understand manner. It also shows error messages and information about supplies and consumables in an intelligible fashion.

Paper feeding customizable for your workplace

The DD 5450 has a system to feed and deliver up to as many as 1,500 sheets, and meets needs for voluminous outputs. Further, the machine provides the paper alignment and selection functions. This improved paper feeding quality strongly supports users in performing their business operations.

Output of 150 ppm* for higher operation and efficiency

The printing speed is 100 ppm in the standard mode and can be increased to 130 ppm in the speedy mode and to 150 ppm* in the top-speed mode. Give it a try to see for yourself just how fast this highly productive digital duplicator really is.

*For A4 and smaller sheets. For sheets larger than A4, the speed will be up to 130 ppm.

Convenient USB Slot

If you also attach the USB memory manager, which is provided as an option, to the machine, you can directly print the data* that has been transferred from your PC to a USB memory device.

*Data created by using the driver for USB direct printing included in the product package.
